

PALMER'S FACIAL PRODUCTS

The Gentle Daily Cleanser removes impurities without drying; the Gentle Exfoliating Facial Scrub buffs away dead skin with the power of microfine cocoa beans; the Daily Facial Lotion with SPF 15 helps protect against sun damage while hydrating; the Night Renewal Cream indulges skin in antiaging bliss; and the Line Smoothing Eye Cream helps to vanquish fine lines and wrinkles. The line's star ingredient — Palmer's Cocoa Butter — addresses skin concerns such as roughness, loss of elasticity, scars and dryness. This all-natural skin-conditioning plant extract is loaded with essential fatty acids that keep skin on the body and face hydrated and supple. Palmer's has developed a unique method to blend this superior moisturizer into lightweight, nongreasy facial formulas.

Not only do the products retail at the always drugstore-friendly Palmer's prices, but they are also jam-packed with active ingredients — such as cocoa and shea butters, milk proteins, vitamin E and evening primrose — that work over-time to transform your complexion. The Night Renewal Cream and Line Smoothing

Eye Cream also contain retinol (vitamin A) to increase skin-cell turnover.
